**Slideshow Title Slide information:**

Please specify the title to be used for your DVD. This typically appears as the first slide introducing the slide show. A font and color will be chosen to match the mood of the slide show. Example:

**DVD Setup (No Charge) Continuous Loop**

Some people like to have the DVD authored so it continuously loops (plays over and over) when it's completed. If you like your slide show set to a continuous loop, please indicate here. Put a "X" next to the one you would like.

Yes, I would like continuous loop

No, I do not want continuous loop

**Music Information:**

If you own the music you'd like in your slide show, we include that at no charge to you. Simply send the CD's with your order. We are able to accept burned CD copies and music in MP3 format. Please include the appropriate amount of music with your slide show. The best slide shows we have done have matched the number of pictures to the amount of music well. Most pictures will show on the screen between 4-6 seconds, with 6 seconds being the ideal amount of time. For example, a 30-picture section would last for just about 180 seconds or 3 minutes. While creating your DVD, if we find the song you selected is too long for the amount of pictures you we can fade the song out. We will make our best attempt to find a good point in the song to fade the song out if we need too.  
Please indicate below, which songs you'd like to include.

Song Title	Location
Example: Brand New Day	Example: Celine Dion: Brand New Day / Track #1

**Transition Preference:**

Transitions are how your slide shows move from one picture to the next. Some people prefer an elegant fade in/fade out for slower songs; some prefer faster livelier transitions for up-tempo songs, while others prefer a mix. Please put a check mark by the one you would like for your show.
